

Lost sense of smell?

Has your child, ages 6 to 21 years old, lost their sense of smell and it could be from COVID-19?

Physicians and researchers with Ear, Nose, and Throat (ENT) at UPMC Children's Hospital of Pittsburgh have an ongoing research study for treatment of loss of smell from COVID-19

Please contact the research coordinators if interested:
Amber Shaffer, PhD - shafferad@upmc.edu/412-692-6874
