

DO YOU HAVE A 3 OR 4-YEAR-OLD? PARTICIPATE IN A NEW RESEARCH STUDY!

The MEET Study

Managing Everyday Emotions Together

The Center of Excellence for Autism Research at Pitt is conducting research on how parents and children manage everyday emotional challenges. We hope this study will help us understand the challenges that parents and their children face managing big emotions.

Eligibility:

- Parents with children ages 3 or 4
- With or without an autism diagnosis

Participation Involves:

- Online Questionnaires
- A lab & home visit engaging in fun tasks
- Compensation for participation and travel expenses
